

48. Uluslararası Tıp Tarihi Kongresi

15-18 Eylül 2022'de Romanya'da Iasi'de yapılacaktır. Detaylı bilgi aşağıdadır.

**48th CONGRESS OF THE INTERNATIONAL SOCIETY
FOR THE HISTORY OF MEDICINE**
FIRST ANNOUNCEMENT AND CALL FOR PAPERS
15-18 September, 2022
IASI – ROMANIA

We cordially invite you to participate in the 48th CONGRESS OF THE INTERNATIONAL SOCIETY FOR THE HISTORY OF MEDICINE (ISHM) - "SEMPER ALTIUS.EXTENDING BORDERS". It is for the third time that ISHM holds its Congress in Romania, after the IXth Congress, organised in Bucharest in 1932, and the XXIIInd Congress that took place in Bucharest and Constantza in 1970. Previous ISHM Congresses held in Romania aroused interest in medical historical studies, while enabling ISHM expansion towards Eastern European countries and the Balkans.

The Romanian Society for the History of Medicine (RSHM) is extremely honoured to be the host of the 48th ISHM Congress in Iasi, Romania. During its 93 years of activity, RSHM has constantly been part of the ISHM and endeavoured to get involved in its scientific projects.

The Romanian Society for the History of Pharmacy and the Academy of Medical Sciences in Romania have joined RSHM in promoting the 48th ISHM Congress.

Due to the ongoing pandemic, the 48th Congress will be an online event or, if possible, a hybrid one.

The Congress is dedicated to the evolution of Medicine and Pharmacy, to noteworthy personalities and outstanding discoveries that influenced the history of mankind in different times and geographical areas. The impact of medical bioengineering, nutrition and sports will be equally considered along with the part culture, arts spirituality and ethics play in medicine.

Particular attention is given to the progress of modern Romanian medicine, pharmacy and bioengineering against the general and challenging European and international background.

Declared a Royal city and historical capital of Romania, Iasi is an important multicultural, scientific and academic center, with numerous pioneering initiatives and accomplishments over the centuries. It is the place of the first scientific society (1830) and the first modern University in Romania (1860), of many cultural movements, a city of artists, writers, poets and scientists.

"Grigore T. Popa" University of Medicine and Pharmacy, that has just celebrated its 142nd anniversary in December 2021, together with The Society of Physicians and Naturalists of Iasi, that will celebrate its 192nd anniversary in January 2022, the "Queen Maria" Municipal Museum and the City Hall largely support this event.

Nowadays Romania lies on the Eastern border of the European Community and Iasi has a chief role in joint operational programs set up within European Neighbourhood and Cross-border Partnership strategies.

Under the current circumstances of a more and more digital and globalized world, we shall try to overcome pandemic threats, their medical and social negative consequences, and include virtual or/and real visits to significant monuments and museums belonging to the city of Iasi or located in its surroundings.

This Congress could undoubtedly offer the chance to rediscover almost unknown or ignored realities of the old Continent, while strengthening cooperation, generating enthusiasm and facing new "medical revolutions".

Thank you for your collaboration and participation.
Welcome to Iasi!
Prof. Dana Baran, MD, PhD
